

Schimmel-vernichter

MOLD PROTECTION RENOVATION SYSTEM

TECHNICAL DATA SHEET

KEY FEATURES

- solvent-free
- biodegradable
- cleansing
- caring

PRODUCT DESCRIPTION

Schimmel-vernichter is a chlorine-containing cleaning and care product for removing Schim-Melpilzansätzen, mildew and bacteria. Extremely effective even with heavy infestation. With active chlorine and bleaching action.

APPLICATIONS

Schimmel-vernichter is a special cleaner that removes mold fungi, mildew and bacteria in a very powerful and sustainable way. Mold killer is effective immediately, has a bleaching, disinfecting and preventive effect. Suitable for washable surfaces in residential buildings, especially in the sanitary area, sauna and swimming pool. For ceramic coverings, cementitious joints, silicone joints, walls, ceilings, masonry, glass, wood and plastic.

PROCESSING

Create a test area to avoid any incompatibilities such as Discoloration etc. to check. Do not pretreat the surface to be treated. 5-10 cm in full and spray all over. Let it work for 15 minutes and then rinse with plenty of water. If necessary, repeat the application. In order to achieve a long-term effect, we recommend a treatment with anti-mold plaster.

Caution: Do not use with other products as hazardous gases (chlorine) may be released. Do not spray plants, textiles and metals. Protect skin, clothing and environment from splashes. Product looks pale.

HEALTH AND SAFETY

Irritant. In contact with acid, develops toxic gases. Irritating to eyes and skin. Keep out of the reach of children. Do not inhale steam. Avoid contact with eyes. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Wear suitable protective gloves. If swallowed, seek medical advice immediately and show this container or label. Use only in well-ventilated areas. Attention! Do not use together with other products as hazardous gases (chlorine) may be released. Use biocides safely. Always read the label and product information before use. Do not empty into drains.

TOOL CLEANING

Clean tools with plenty of water.

STORAGE

Store and transport cool, dark and standing. Best before until see bottle imprint.

PACKAGING

Item No. 30820931 500 ml spray bottle

TYPICAL PHYSICAL PROPERTIES

Basis	detergent based on water
Colour	colorless
Consumption	500 ml are sufficient for about 5 m ² (depending on Underground and pollution)
Application temperature	Do not use in frost!

With these instructions we want to advise you on the basis of our experiments and experiences to the best of our knowledge. However, we can not guarantee the processing results in individual cases because of the large number of possible uses and the storage and processing conditions of our products which are beyond our control. Perform your own experiments. Slight discoloration of sealants under UV irradiation possible. Low color variations between batches due to production technology. For the absolute color fidelity no warranty is taken over. Use object-related batch-like material. Our technical and commercial consulting service is at your disposal.
